Operations Update

Barry O'Donovan

September 19th 2013

barry.odonovan@inex.ie

Key Numbers

- 64 trafficing members
- 38 members have IPv6 route collector sessions

Key Numbers

- 64 trafficing members
- 38 members have IPv6 route collector sessions
- >54k IPv4 routes on route collector
  - ~5k available from members with open policies

Key Numbers

- 64 trafficing members
- 38 members have IPv6 route collector sessions
- >54k IPv4 routes on route collector
  - ~5k available from members with open policies
- ~1k IPv6 routes on route collector
 - ~325 available from members with open policies

Key Numbers

- 64 trafficing members
- 38 members have IPv6 route collector sessions
- >54k IPv4 routes on route collector
    - ~5k available from members with open policies
- ~1k IPv6 routes on route collector
    - ~325 available from members with open policies

- 53 IPv4 route server sessions (>80%)
- 36 (29) IPv6 route server sessions (76% active)

Traffic Graphs

New Connections:

- Lightnet   (AS43406, KCP & CWT, 1Gb + 100Mb)
- Telcom   (AS60277, TCY-KCP, 100Mb)

New Connections:

- Lightnet   (AS43406, KCP & CWT, 1Gb + 100Mb)
- Telcom   (AS60277, TCY-KCP, 100Mb)
- Host Ireland   (AS199256, TCY-KCP, 100Mb)

New Connections:

- Lightnet   (AS43406, KCP & CWT, 1Gb + 100Mb)
- Telcom   (AS60277, TCY-KCP, 100Mb)
- Host Ireland   (AS199256, TCY-KCP, 100Mb)

Upgraded / Changed Connections:

- Amazon   (TCY-CWT, LAN1 to 20Gb)
- Atlas   (TCY-KCP, LAN1 to 1Gb)
- Bitbuzz   (TCY-KCP, LAN1 to 1Gb)
- BT   (TCY-KCP, LAN2 to 10GB)

- BT   (TCY-KCP, LAN2 to 10GB)
- *Servcentric   (TCY-CWT, LAN1 to 1Gb)*

IXP Manager - Updates

- Live at LONAP since this summer

IXP Manager - Updates

- Live at LONAP since this summer
- Live / testing at:
    - IIX Peering (US / Canada)
    - GRNET
    - WAIX
    - NWAX
    - SOX
    - Canadian IX's via CIRA
    - IX Leeds
    - BCIX
    - Gambia IX (and other African IXPs)

Route Server Prefix Analysis Tool

- Route Server Prefix Analysis Tool
- User / contact consolidation
- Reseller support
- Customer notes, contact groups
- Port reports on errors / discards
- Routing Registry database via BGPQ
- Smokeping integration

- Route Server Prefix Analysis Tool
- User / contact consolidation
- Reseller support
- Customer notes, contact groups
- Port reports on errors / discards
- Routing Registry database via BGPQ
- Smokeping integration

- Lots of documentation!
- Integrated config generators
  - AS112; route collectors;
  - Smokeping; MRTG;
  - Nagios; DNS ARPA.

- Forklift upgrade due by end October
- Original servers - Dell SC1435
    - Purchased 2007
- New servers are Dell R320s

- Forklift upgrade due by end October
- Original servers - Dell SC1435
  - Purchased 2007
- New servers are Dell R320s

- Considering change to Linux for MD5
